

Royal Perth
Hospital

NHMRC Program and Fellowship funding to commence in 2009

(RPH campus researchers are underlined)

NHMRC Project Grants

Dr Oliver Rackham; Dr Aleksandra Filipovska
Mitochondrial gene expression

A/Prof Lin Fritschi; Dr Kieran McCaul; Dr Deborah Glass; Prof Christobel Saunders; Dr Jane Heyworth; Dr Thomas Erron
Does shift work cause breast cancer?

Prof Leon Flicker; Prof Osvaldo P Almeida; Prof David Ames; A/Prof Gerard Byrne;
Prof Nicola Lautenschlager; Dr Kay Cox
A randomised clinical trial of physical activity for the treatment of patients with Alzheimer's Disease

A/Prof Ruth Ganss
Targeted anti-tumour immuno therapy

Prof Gerald Watts; Prof Hugh Barrett; Dr Dick Chan; Dr Leon Adams;
Liver fat and lipid transport in the metabolic syndrome

Prof Gerald Watts; Dr Dick Chan; Prof Hugh Barrett
Regulation of lipoprotein metabolism following feeding

Prof Leon Flicker; Prof Osvaldo P Almeida; Dr Keiran McCaul
Randomised trial of homocysteine lowering treatment of depression in later life

A/Prof Richard Prince; Prof Leon Flicker; Dr Janine Calver; Dr Kun Zhu
A longitudinal study of health in older women

Prof John Newnham; Prof Lyle Palmer; Dr Craig Pennell; Prof George Davey-Smith;
Prof Lawrie Beilin; Prof Stephen Lye
Understanding genetic and environmental causes of chronic adult disease in early life

Prof Konrad Jamrozik; Prof Graeme Hankey; Prof John Eikelboom; A/Prof Frank van Bockxmeer
VITATOPS - A controlled trial of vitamins to prevent stroke

ARC Discovery Projects - Funding to Commence in 2009

Prof SJ Berners-Price; Dr A Filipovska
Gold-based mitochondria targeted chemotherapeutics: mechanistic studies probing interactions with thiol and selenol containing proteins
